

**The American WHO** is the hottest tribute in New England totally committed to the celebration of The WHO. An authentic and genuine experience, **this band** captures the attitude, dynamics and power of the original with only the occasional destruction of vintage instruments! Unlike many tributes, **The American WHO** doesn't go for simply recreating the studio sound, they prefer to ROCK IT like The WHO did back at Leeds and Isle of Wight with the Thunder, Lightning and Vocal power that made them the Greatest Live Act ever! Playing sold out clubs, rocking the casinos, garnering repeat performances in Laconia's Bike Week to Private Parties... and with their now famous **British Invasion Productions**, **The American WHO** gives you an unparalleled and authentic sound with a show that is not to be missed. **Check out the tribute EVERYONE is talking about!**

**Performance Videos**
